Parkside Brings a Timeless Style to Tuscaloosa's Townhome Market

At Parkside, a proven and spacious floor plan meets timeless architectural style. The result, Tuscaloosa's most impressive townhome development. The Waldrop Construction team engaged in every phase of this project, including planning, design, and construction.

Parkside offers fantastic features including spacious, 10ft ceilings throughout the second floor living area, wide access garage doors, and modern finishes throughout. We led the project through a rain filled spring to overcome challenging site conditions and a very tight timeline to deliver this project on time and on budget.
